ASTRID LINDGREN COMPETITION

Beginning in 2006. Every three years the Foundation has organized the Astrid Lindgren Literary Competition for a contemporary book for children and youth. The aim of the competition is to promote valuable native literature.

Both established writers and debutants take part in the competition.

The prizewinning books are divided into three age categories and, thanks to cooperation with the invited publishing houses, are published in print within several months after the announcement of the results.

Since the first edition, Professor Joanna Papuzinska has chaired the Competition Jury.

The output of the first four editions includes over 40 awarded and honored books. The premiere of the prize-winning books of the fifth edition of the Competition took place in March 2020.

Another activity of the Foundation is the Program

Education through reading

which is addressed to pupils in grades V-VII of elementary school. Its purpose is to support the moral development of young people and promote reading and valuable literature.

During classes, supervised by teachers, students learn about universal moral values by reading short stories by recognized Polish authors from the collection "Gorzka czekolada vol. 1 i 2" (Bitter chocolate).

The final stage of the "Education through Reading" program is for students to create short multimedia presentations on moral values of their choice.

The basis of the Program is the book "Bitter Chocolate" - 15 excellent short stories about what is most important in life, about friendship, respect, justice, courage, freedom, but also optimism, kindness, peaceful attitude to the world...

The authors of fourteen stories are the winners of the Astrid Lindgren Literary Contest, organized by the ABCXXI All of Poland Reads to Kids Foundation.

The story of wisdom was written by Andrzej Maleszka, an extremely popular and well-liked bestselling author for children and an excellent director.
