Integral part of the school

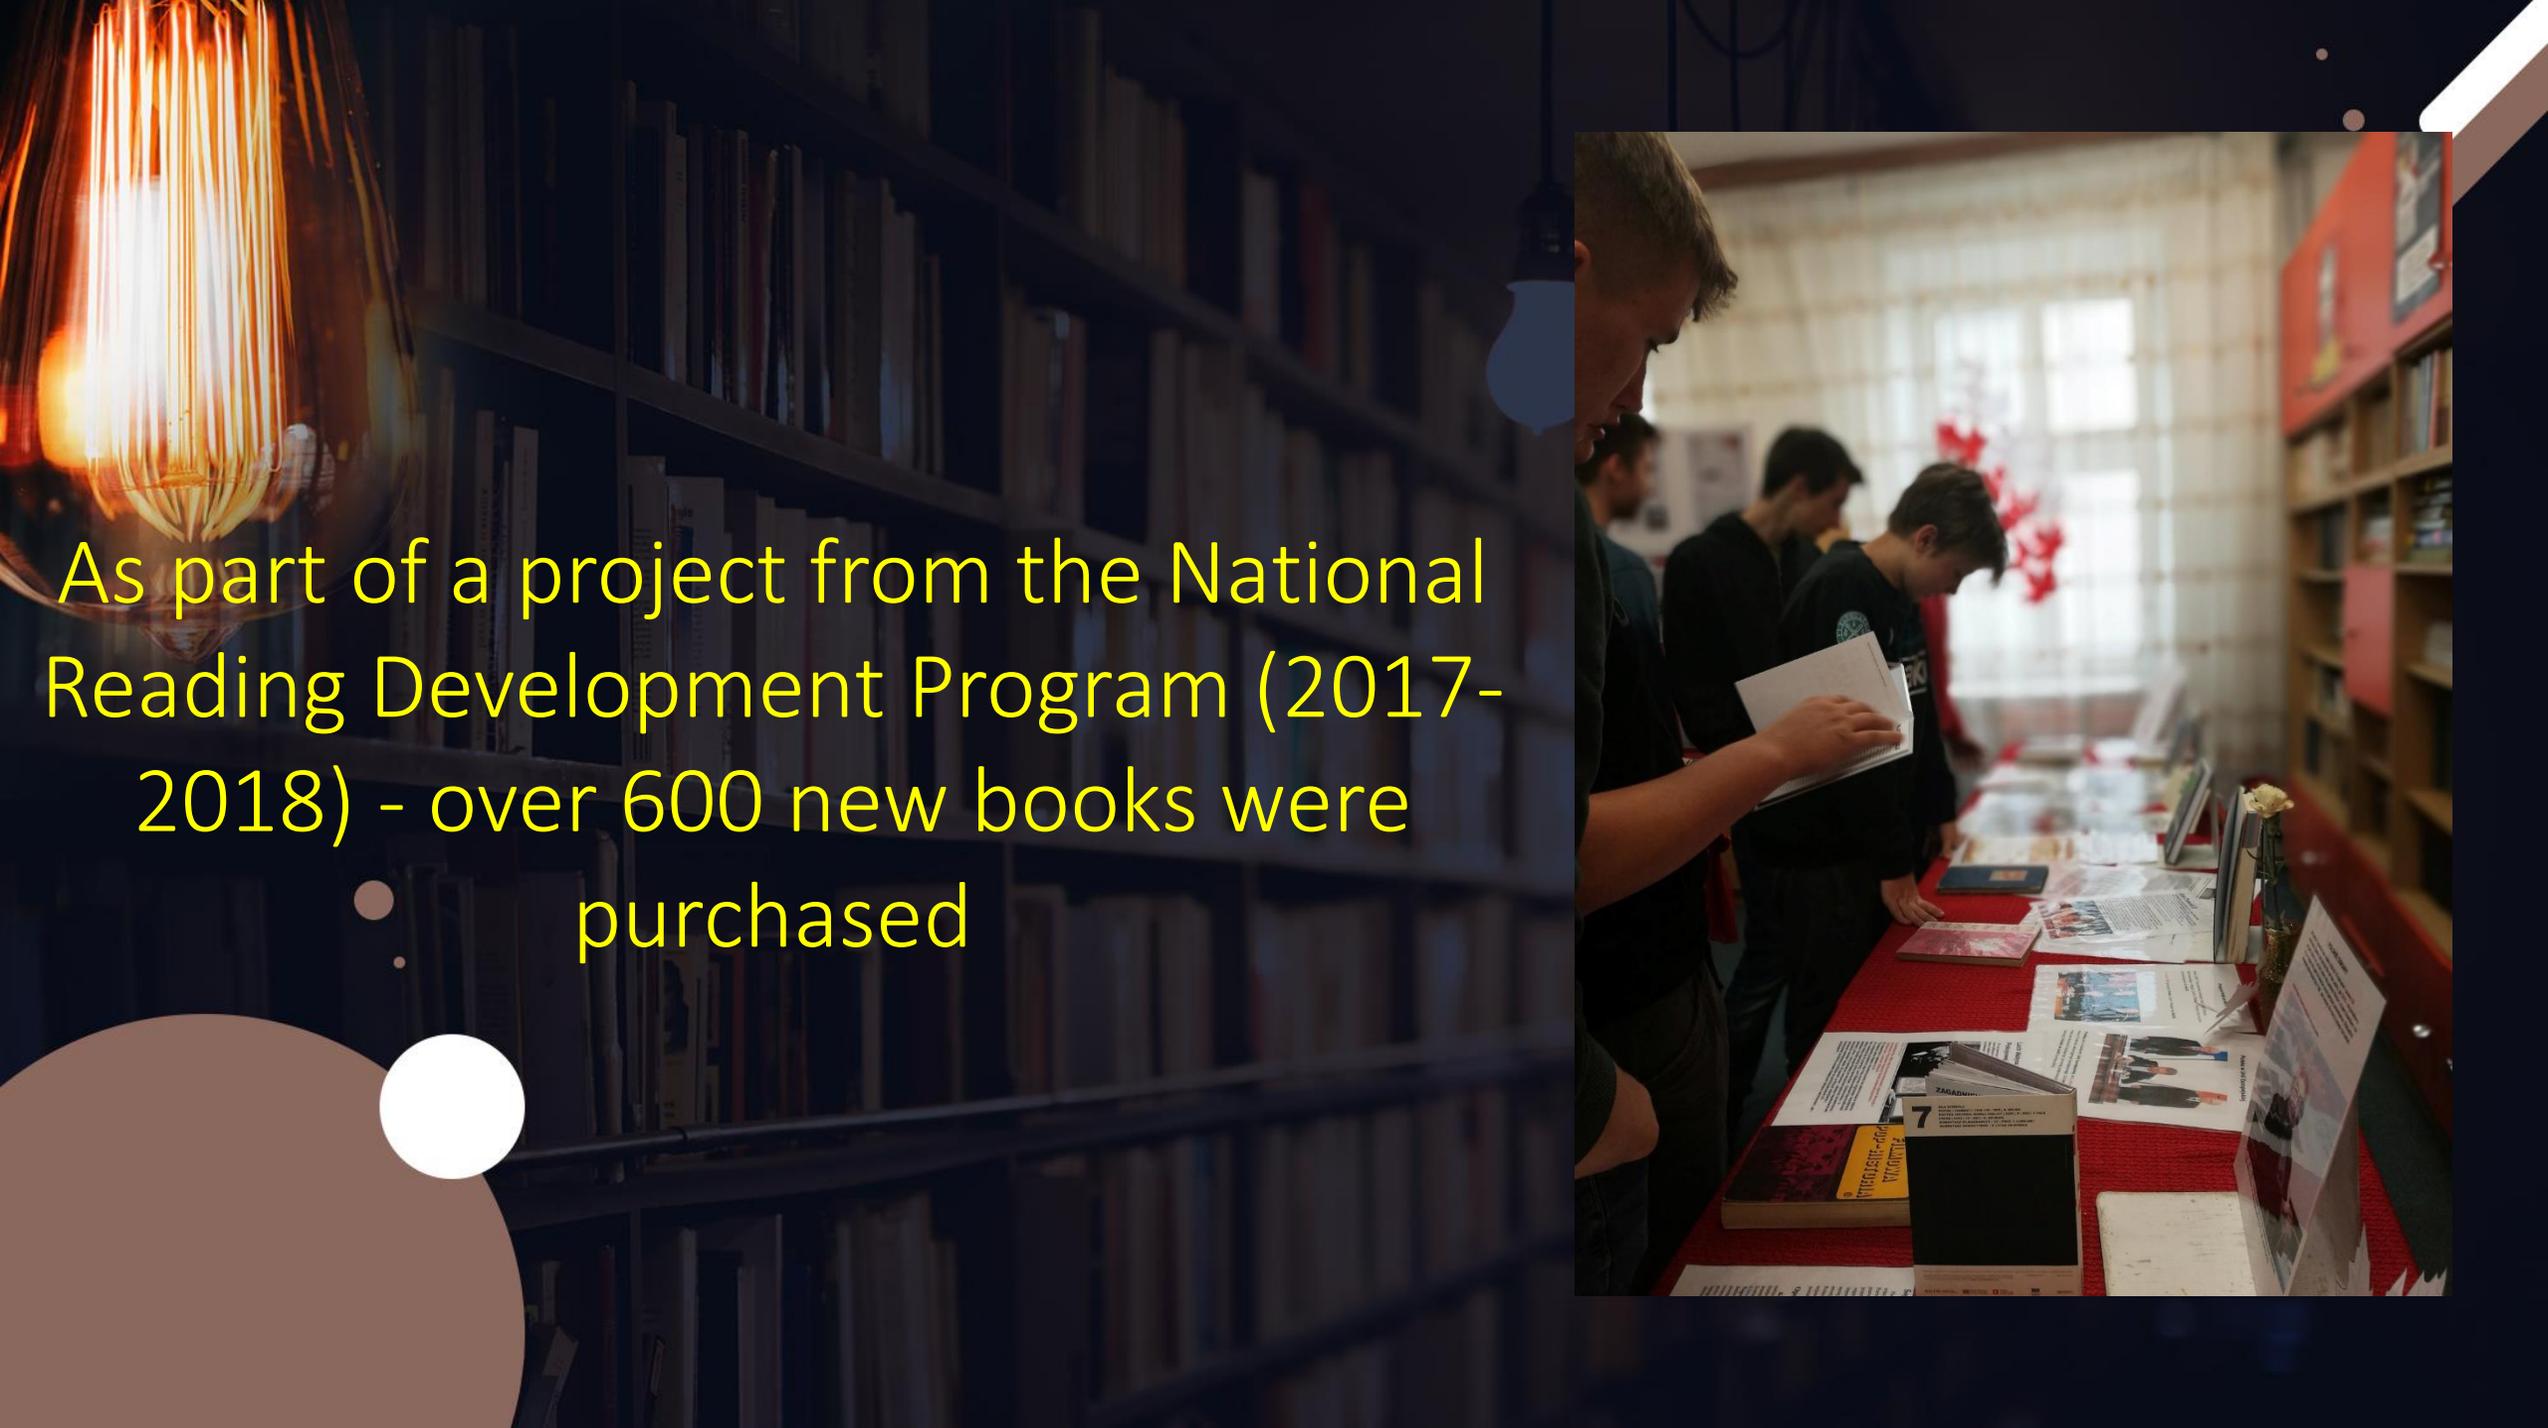

First entry in the inventory book  
of the book collection -  
1946.

At the moment of establishing the  
school (1968) - 15 226 volumes.  
Currently - 39,445 volumes.

4 rooms:  
1 reading room  
3 lending areas

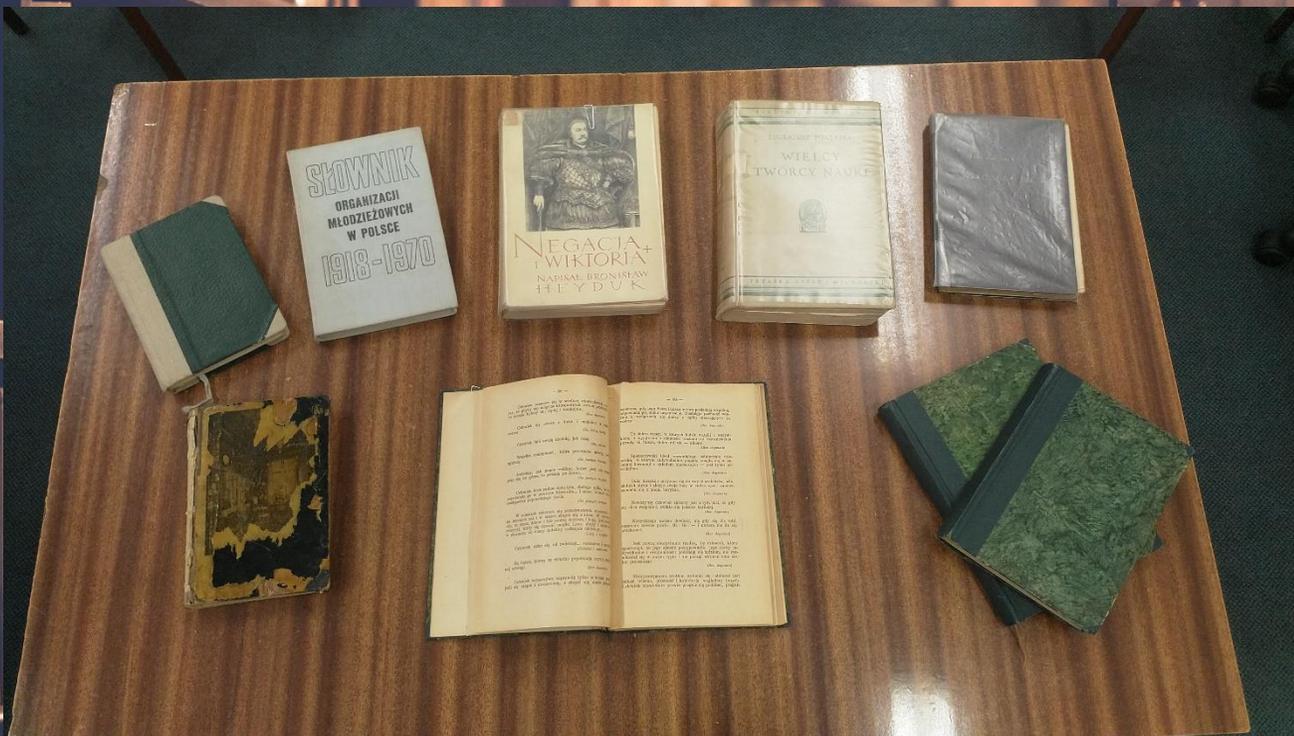

In the 1990s - the largest school library in the city in terms of volumes.

As part of a project from the National Reading Development Program (2017-2018) - over 600 new books were purchased

We have unique copies - books published before 1939, donated by the Polish-American community.

We keep alumni chronicles, which are very popular during reunions of former students.

# Program MOL/MOL NET+

In the reading room there is a modest Multimedia Information Centre which can be used by students, teachers and parents.

There are four computers and a multifunction device at their disposal.

At present, the school reading room is also often used for high school and vocational exams. Due to space problems at the school it is also used as a classroom for learning foreign languages in groups.

The library is an integral part of the School of Electronics and Information Technology in Giżycko. One of its most important tasks is to arouse students' reading and information interests, shaping their reading culture and supporting teachers in the implementation of the didactic and educational process.

A photograph of a library interior. The background is filled with rows of bookshelves packed with books. In the foreground, several hanging light bulbs are visible. One bulb on the left is brightly lit, casting a warm glow, while others are unlit. The overall atmosphere is quiet and studious.

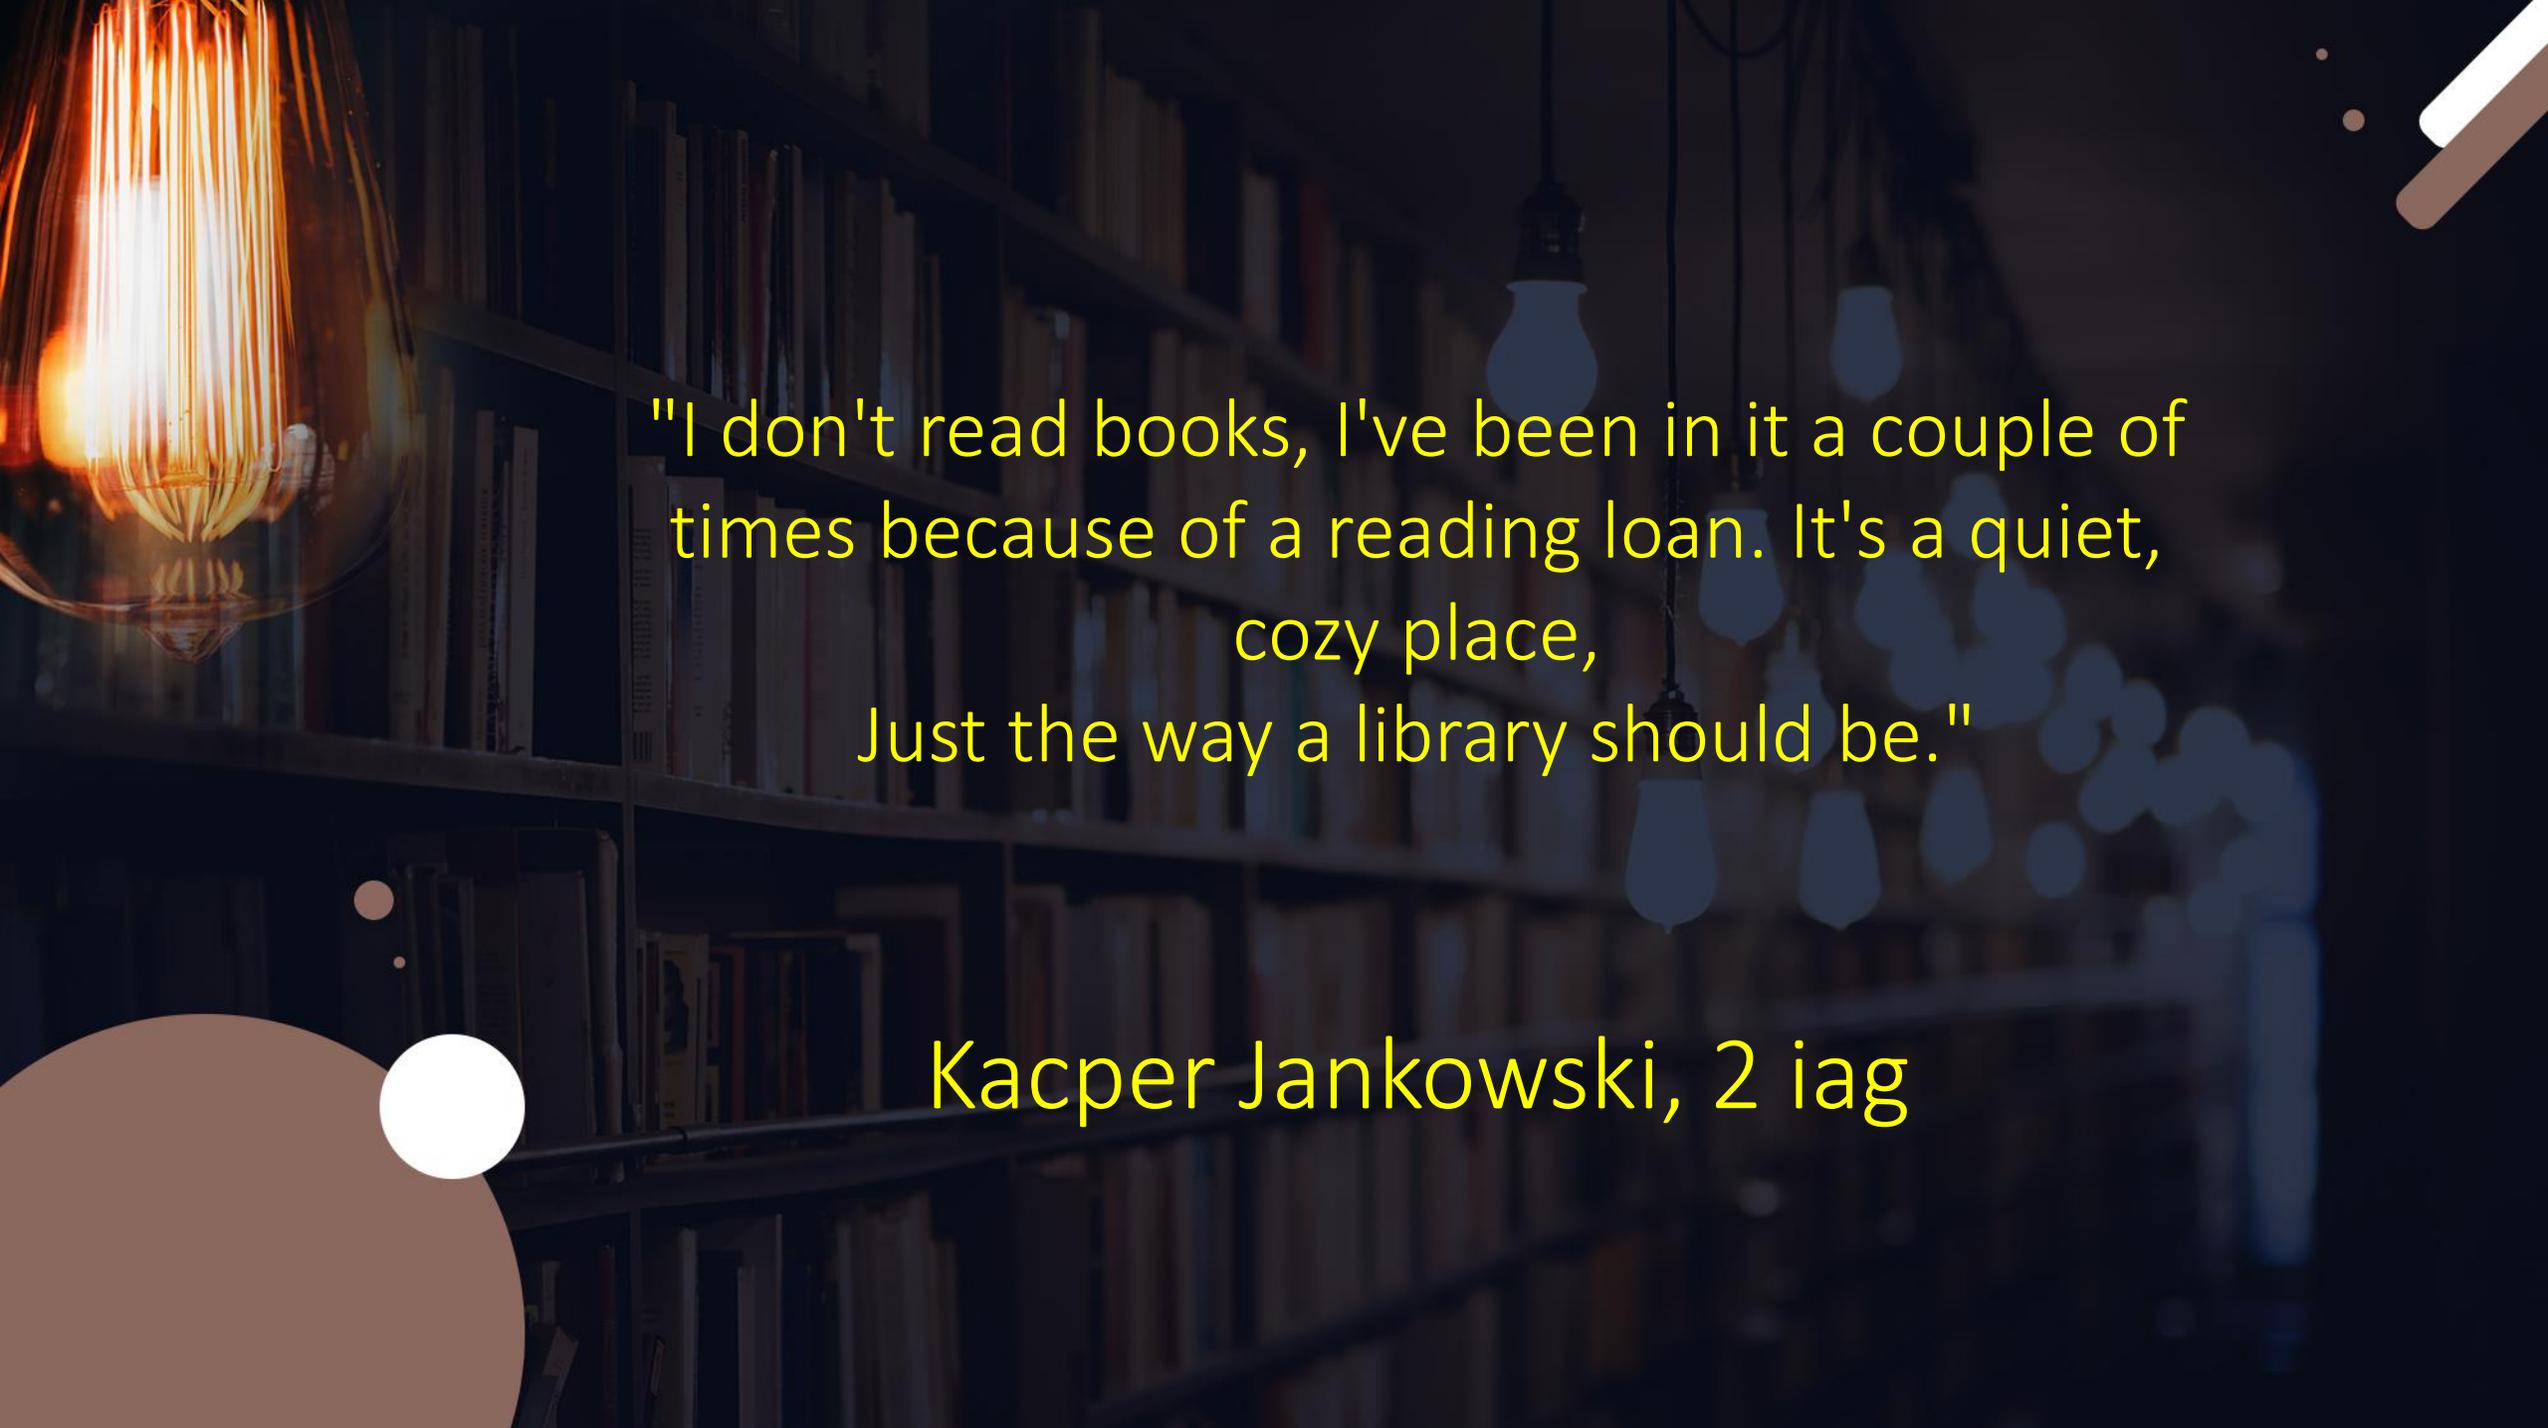

"Our library is creative and helpful, you can always ask for something and you will leave with a smile on your face. Our school library has all the books to choose from, at breaks you can read books in the library and relax."

Adam Polakowski, 2 iag

Kacper Ozygała, 2 iag

"Whenever you have a longer free moment, before or after school, you can spend that time in our library. While you are there, we can take advantage of the many books available or meet interesting personalities. Even when you are not a reader, you can always count on a moment of peace."

A photograph of a library interior. The background is filled with rows of bookshelves packed with books. Several light bulbs are hanging from the ceiling, some of which are illuminated, creating a warm, cozy atmosphere. The lighting is dim, with the primary light source being the glowing bulbs. The overall color palette is dark with warm highlights from the lights.

"I don't read books, I've been in it a couple of times because of a reading loan. It's a quiet, cozy place, Just the way a library should be."

Kacper Jankowski, 2 iag

A photograph of a library with rows of bookshelves filled with books. Several light bulbs are hanging from the ceiling, with one in the foreground being brightly lit and glowing orange. The rest of the room is dimly lit, with the light bulbs in the background appearing as soft, out-of-focus bokeh. In the top right corner, there are some white and brown geometric shapes. In the bottom left corner, there are some white and brown circles.
